ABOUT ME

I am a motivated university student majoring in Computer Science and English for Professional Communication. I have strong skills in Microsoft Excel, data handling, and digital tools such as Figma and Flutter. With a solid foundation in communication and teamwork, I am eager to apply my analytical mindset and attention to detail in a professional accounting environment like JIPOCH Microfinance.

WORK EXPERIENCE

FREELAND CLUB MEMBER

Institute of Technology of Cambodia

- Participated in projects and discussions focused on environmental awareness, sustainability, and youth development.
- Assisted in planning and organizing club events and meetings.
- Practiced teamwork, communication, and responsibility in a student-led environment.

CLASS PROJECT: REAL RESPONSIVE

ITC | 2023

- Developed a responsive web application using HTML, CSS, and JavaScript.
- Collaborated with a team to design and implement the project.
- Delivered and tested the application on a local server.

ROADMAP UX/UI PROJECT

ITC | 2023

- Designed an educational app prototype using Figma.
- Created the logo, color palette, typography, user personas, and information architecture.
- Developed wireframes, mockups, and a clickable prototype.
- Presented a marketing strategy and created a video introduction to pitch the app concept.

MOBILE APP DEVELOPER (FLUTTER PRACTICE)

ITC | 2024

- Built a basic mobile app using Flutter for note-taking and task reminders.
- Integrated basic UI components and state management.
- Strengthened understanding of mobile development and Dart programming.
